

# 6th Mini-Symposium on Liquids

2012.6.23(Sat) 10:00~

Meeting Room in Memorial Auditorium,  
Hakozaki Campus, Kyushu Univ.

*~Life and Surface~*

**Takahiro Koishi** (Fukui Univ., Japan)  
“Molecular Dynamics Simulation of Droplets  
on Nanopillared Surface ”

**Hiroshi Onishi** (Kobe Univ., Japan)  
“Interfacial Liquids Visualized by  
Frequency-Modulation AFM ”

**Yoji Kubota** (Kyushu Univ., Japan)  
“Fast Dielectric Relaxation of Water around  
an Ion ”

**Akira Kakugo** (Hokkaido Univ., Japan)  
“Dynamic self-organization and polymor-  
phism of microtubule assembly through ac-  
tive interactions with kinesin”

**Ryuhei Harada** (RIKEN, Japan)  
“Hydration and Protein Stability under Mo-  
lecular Crowding Environments”

**Jian-Ren Shen** (Okayama Univ., Japan)  
“Crystallization and crystal structure of  
photosystem II, a membrane-protein com-  
plex catalyzing light-induced water-splitting  
in photosynthesis”
